Hardware Compatibility List Hard Disks

You trust us to protect your data so we take it upon ourselves to list only drives that have passed our stringent disk qualification test. Because of that, you will not see all available drives here — rather only the ones that are proven to show acceptable reliability in our lab. That said, if you will be using the ReadyNAS in a business-critical environment, we recommend drives with **Rotation Vibration Safeguard** feature to provide an extra level of security from premature drive failures. These drives typically also come with a 5-year warranty which matches the 5-year warranty on your business-class ReadyNAS devices.

WARNING: Be sure to use only drives recommended in the compatibility list, otherwise, NETGEAR Technical Support can and will deny support.

Display Hard Disk compatibility list for:

- ○ ReadyNAS 1100
- ○ ReadyNAS 2100
- ○ ReadyNAS 3100
- ○ ReadyNAS 3200
- ○ ReadyNAS 4200
- ○ ReadyNAS Duo
- ○ ReadyNAS NV
- ⊙ ReadyNAS NV+
- ○ ReadyNAS NVX
- ○ ReadyNAS NVX Pioneer Edition
- ○ ReadyNAS Pro 2
- ○ ReadyNAS Pro 4
- ○ ReadyNAS Pro 6
- ○ ReadyNAS Pro Business Edition
- ○ ReadyNAS Pro Pioneer Edition
- ○ ReadyNAS Ultra 2
- ○ ReadyNAS Ultra 2+
