

## WIRESHARK INSTALLATION AND PACKET CAPTURE INSTRUCTION

1. Download WireShark installer here: <https://www.wireshark.org/download.html>
2. Double-click the installer file and follow the prompts to install the tool.
3. To capture packets, start WireShark on your computer and select the network interface connected to CAX80 and press “Enter” (You can also just double-click the network interface). The packet capture starts immediately. After reproducing the issue, wait for few minutes and then click the Stop icon to end packet capture.

4. Now click “File” at the top left corner and click “Save” to save the file into your computer.
