

Nighthawk x10 r9000 bottlenecking internet/ Getting only about 14% of full internet speed!

The screenshot shows the router's configuration interface. On the left, a sidebar lists various settings: Guest Network, WAN Setup, LAN Setup, QoS Setup (highlighted in purple), Device Name, ReadySHARE, Security, and NETGEAR Downloader. The main content area is titled 'Internet Bandwidth' and has two radio button options: 'Let Speedtest detect my Internet bandwidth (recommended)' (which is selected) and 'I want to define my Internet bandwidth'. A purple button labeled 'Take a Speedtest' is visible. Below it, the Speedtest logo is shown with the text 'by OOKLA' and a 'Privacy Policy' link. To the right, the test results are displayed: 'Latest test result (18:58 Aug 18, 2018)', 'DOWNLOAD 117.27Mbps', and 'UPLOAD 11.84Mbps'.

Test your Internet speed with Spectrum's Internet Speed Test

For best results, connect your laptop or computer directly to your home's router via an Ethernet cable, not via WiFi.

The screenshot shows the Spectrum Internet Speed Test interface. At the top left is the Spectrum logo. At the top right is the Speedtest logo. The main area features two large blue boxes: the top one shows 'DOWNLOAD 13.7 Mbps' with a corresponding speed test graph, and the bottom one shows 'UPLOAD 11.3 Mbps' with its own graph. To the right of these graphs is a large blue circle containing the word 'AGAIN'. At the bottom left, the Spectrum logo is repeated along with the IP address '72.191.186.195'. At the bottom right, the Spectrum logo is repeated along with the location 'Fort Worth, TX'. There are also small icons of a laptop and a monitor at the bottom corners.
