### Shares on RAID Volumes

Click on the access icon to customize the access control. Place the mouse cursor over the icon to display the current access level in the status bar. A quota value of 0 disables quota enforcement. For instruction on how to access the shares, click Help.

Share Name	Description	Password	Used	Quota (MB)	CIFS	HTTP/S	Delete
Media_2	Unimportant media		0	0			
backup	Backup Share		569960	0			
media	Media Server Share		839218	0			

### Shares on USB Storage Devices

Click on the access icon to customize the access control. Place the mouse cursor over the icon to display the current access level in the status bar. For instruction on how to access the shares, click Help.
