Region Selection

Region: North America

Enable Smart Connect - Let the router intelligently select the best 2.4 GHz or 5 GHz WiFi band for your WiFi connections. Smart Connect requires that the 2.4 GHz and 5 GHz WiFi networks use the same WiFi network name (SSID), security options, and password.

Wireless Network (2.4GHz b/g/n)

- Enable SSID Broadcast
- Enable 20/40 MHz Coexistence

Name (SSID): Home_Network

Channel: Auto

Mode: Up to 800 Mbps

Security Options

- None
- WPA2-PSK [AES]
- WPA-PSK [TKIP] + WPA2-PSK [AES]
- WPA/WPA2 Enterprise

Security Options (WPA2-PSK)

Password (Network Key): [password field]

Wireless Network (5GHz 802.11a/n/ac)

- Enable SSID Broadcast

Name (SSID): Home_Network5G

Channel: 153

Mode: Up to 1733 Mbps

Security Options

- None
- WPA2-PSK [AES]
- WPA-PSK [TKIP] + WPA2-PSK [AES]
- WPA/WPA2 Enterprise

Security Options (WPA2-PSK)

Password (Network Key): [password field]
